

# Quality checklist: IMPORTANT!

Project Name \*

Textures \*

- ☐ Make sure to use the correct textures accordingly to the Renders/images of the project - Variations: Do not repeat images..Do not use plain colors!

Use of enough vegetation \*

- ☐ 1 tree should not pass 100-200 triangles
- ☐ Variate position of the vegetation, to not create a perfect repetitive path
- ☐ The filler vegetation (the one that surrounds the project) created cannot pass the 300 triangles
- ☐ Emulate the distribution of the vegetation as the ones that appear on the images/renders previously send of the project

*"RATHER use the ones provided by hauzd"*

Urban environment \*

- ☐ Lines on the streets; Model at least the streets that surround the project with the sidewalks or any ""green area"
- ☐ ALWAYS USE: Lights posts, cars, people on the streets
- ☐ Any other representative detailed based on the images/renders ( fences, boards, traffic light, bus stops, trash buckets, etc)
- ☐ Model simple representative versions of other buildings next to the project

Use of reflections \*

- ☐ Use the maps for the windows and other reflective objects that represent the project environment like: Green areas, Ocean views or Buildings
- ☐ ALWAYS USE: Lights posts, cars, people on the streets
- ☐ Any other representative detailed based on the images/renders ( fences, boards, traffic light, bus stops, trash buckets, etc)
- ☐ Model simple representative versions of other buildings next to the project

**Do not model the framework of the windows if you have more than 5 floors. If you have them , do the BAKING as a texture.**

**Make sure that all the apartment pivots key plans and/or buildings have a correct alienation.**

# Quality checklist: IMPORTANT!

## Screen checklist \*

- ☐ Pricelist section
- ☐ Map (project location)
- ☐ Points of interest
- ☐ Images on the gallery section + thumbnails
- ☐ Specifications section
- ☐ Image to be shown in splash screen
- ☐ Image to be shown on entrance screen
- ☐ Model simple representative versions of other buildings next to the project

## Adjustments based on client comments \*

- ☐ YES
